VIENNA 2012

1st ANNOUNCEMENT

of the World's leading Conference in Periodontology

Gernot Wimmer

Chairman of the
Europerio 7 Organising Committee

Dear friends and colleagues,

It is Europerio time again! From June 6 – 9, 2012, Europerio 7 will be held in Vienna, Austria — the World's leading Conference in Periodontology and Implant Dentistry.

The first Europerio in 1994 in Paris marked the starting point of this unique congress success story. Organised by the European Federation of Periodontology and held every three years, it is now considered the most important Conference in Periodontology and Implant Dentistry.

I am honoured that the Austrian Society of Periodontology — together with my Congress Committee — has been entrusted with organising this important meeting. Naturally, we will aim to offer you an outstanding scientific and clinical conference as well as excellent social events.

Europerio 7 is the ideal occasion for all dentists, dental hygienists and specialists interested in Periodontology and Implant Dentistry to come together. To promote our meeting, a special Ambassador Programme has been created. It entitles persons nominated by their National Societies to advertise and promote Europerio 7 in their home countries.

With the experience gained from six successful Europerio meetings, the help of all national European societies as well as the feedback provided by a continuously growing number of participants, we were able to set up a wide-ranging and versatile programme of Periodontology and Implant Dentistry. Renowned international

speakers will forge a bridge from pure research to the field of clinical applications. This should give us the chance to reflect on the latest research and innovative applications.

New electronic communication channels will also be introduced, particularly aimed at our increasingly growing young audience.

We believe that for Europerio 7, Vienna provides the ideal setting. Situated in the heart of Europe, Vienna is an economic, cultural and scientific hot spot — safe, open-minded and within easy reach for visitors from Europe and abroad. Not surprisingly, it has ranked among the world's most popular congress cities for many years.

With its rich tradition, the city of culture and science awaits you! Join us to sample a choice of Viennese sights, tastes and traditions, including the city's surroundings and the lovely countryside along the blue river Danube.

Participants from all parts of the world — from Eastern Europe, the Near and Middle East, Asia and Oceania, as well as Africa and the Americas — are cordially invited to join this exceptional meeting in Vienna — where East meets West, orient meets occident, where north meets south.

We look forward to seeing you in Vienna and to sharing the exciting new developments in our fields!

IMPORTANT DATES

Thu, September 15, 2011

Start on-line registration and abstract submission

Wed, November 30, 2011

Deadline for submission of abstracts,
and of manuscripts for Jaccard Prize

Tue, February 14, 2012

Latest notification / classification of accepted abstracts

Mon, February 27, 2012

End of early registration fee

Sun, May 20, 2012

End of regular fee and on-line registration

Wed, June 6 – Sat, June 9, 2012

EUROPERIO 7

ORGANISING COMMITTEE

SCIENTIFIC PROGRAMME HIGHLIGHTS

The scientific programme of EuroPerio 7 has been designed to appeal to specialists and generalists alike. Find below extracts from the preliminary programme. Regularly updated information can be found on www.europerio7.com.

PERIODONTOLOGY TOPICS

Aetiology and Diagnosis

- New insights into the host response in periodontitis
- Risk factors and management
- Genetics
- Aggressive periodontitis
- Microbial analysis

Advances in Non-Surgical Therapy

- Role of antimicrobials & anti-inflammatories
- Periodontal maintenance treatment in practice

Periodontal Surgery

- Current techniques and applications
- Periodontal plastic surgery — two major sessions
- Periodontal regeneration

Periodontal Management of Molar Teeth

Periodontal Medicine

Latest Therapies and Emerging Technologies

Multi-disciplinary Treatment Approaches in the Advanced Disease

Get new insights to take home!

IMPLANT DENTISTRY TOPICS

- Rapid treatment protocols — surgery and prosthodontic
- Computer-aided treatment
- Implants for compromised situations
- Treating the periodontitis patient with implants
- Peri-implant soft tissue problems and management
- Peri-implantitis — a challenge for all
- Practical approaches to maxillary sinus augmentation surgery

FOCUSED SESSIONS FOR HYGIENISTS

- Behaviour, psychology and quality of life
- How does understanding aetiology influence management
- Toothbrushes, toothpastes and mouthrinses
- Mucosal and dentine sensitivity
- Prevention and treatment of peri-implantitis

THEMED RESEARCH SESSIONS

- Periodontal therapy
- Periodontal medicine
- Periodontal regeneration
- Aetiology and pathogenesis
- Diagnosis and risk
- Control of infection
- Periodontal systemic interactions

Sponsors will have the possibility to present industry sessions and workshops.

CALL FOR ABSTRACTS

Abstracts of scientific presentations (both basic and clinical research) as well as clinical presentations (case series, innovative surgical or therapeutic approaches, etc) may be submitted between Thursday, September 15, 2011 and Wednesday, November 30, 2011.

An online application form will be available on www.europerio7.com.

JACCARD PRIZE

To all young researchers: submit your publication for the Jaccard Prize!

Find more information on www.efp.net

Meet the experts at Europerio 7!

PRELIMINARY FACULTY

in alphabetical order per March 10, 2011

Abbas, Frank	Netherlands	Marchisio, Olivia	Italy

VIENNA

Vienna offers old historical palaces and modern shopping streets, traditional hotels, Austrian food and haute cuisine, typical Viennese coffee houses and restaurants, outstanding opera performances, classical concerts and open-air festivals, antique shops and elegant boutiques — all joined together in incomparable Viennese harmony. In 2001, the city centre was designated a UNESCO World Heritage Site.

Also, Vienna is clean, green and safe. This fact was mirrored by the Mercer Survey 2009 where Vienna was ranked first as the city with best quality of living worldwide.

For you as congress delegate — some interesting facts:

- Travel to, from and within Vienna is quick and easy.
- The congress venue can conveniently be reached by public subway, which connects it with the city centre within 15 minutes.
- Internet is offered in nearly all hotels. Vienna has more than 1000 Wifi hotspots, which makes it easy for you to stay connected.
- Although the official language spoken in Vienna is German, most people are able to speak English — many of them also other foreign languages. So you shall easily find your way around.
- Vienna offers restaurants for all tastes and nationalities.
- Weather in June is generally pleasant.
Day-time temperatures in June range between 18 and 22°C.

A variety of hotel rooms has been blocked for you to attend Europerio 7. Bookings can be made online starting from September 2011.
