EuroPerio 7

7th Conference of the European Federation
of Periodontology

June 6-9, 2012

Vienna, Austria

EuroPerio 7 >> Vienna, Austria 6-9 June 2012

The largest EuroPerio ever!

Now a significant part of the EFP history, this year the **EuroPerio 7** congress successfully took place in June 2012 from 6 to 9. More than 7.800 colleagues from all over the world, in fact from more than 90 countries and a substantial number of members from the National Societies, attended this prestigious event to learn about the latest advances in Periodontology. Over 100 speakers from 21 countries participated and over 1,300 abstracts from 79 countries were submitted. This impressive number exceeded that of **EuroPerio 6** by more than 50%.

It is important to note that, in accordance with the international flavor of the event, simultaneous translation of certain sessions was available in German, French, Italian, Russian and Polish.

Innovation and Internet sophistication heralded the success of **EuroPerio 7**

EuroPerio 7 introduced many new features, which were warmly welcomed:

The Ambassador Programme was launched.

An Ambassador Committee has been set up consisting of 23 ambitious young colleagues nominated and fully supported by their respective EFP member national society. Chair of the committee, Corinna Bruckmann, from Austria. They were committed to raising the recognition of **EuroPerio 7** as the World Leading Conference in Periodontology and were responsible for the advertising and promotion of **EuroPerio** in their home country. The Ambassadors played an active role by chairing some of the free sessions and representing their countries throughout the congress.

The **EFP Village** was a new concept introduced to play the role of gathering community members of the National Societies and providing information about their Society and the Federation. All information from the National Societies was digitally available on iPads. Within the EFP Village there were 26 stands from which Society members and staff welcomed visitors and, in a very friendly atmosphere, encouraged networking amongst all attendees. This very successful initiative will again be implemented at **EuroPerio 8** in London.

EFP Village Raffle in Vienna.

The winners of the package prizes are:

1st Prize>> Veronique Coleman (Ireland) - 1 travel package to **EuroPerio 8** London 2015 + free entry

2nd Prize>> Mandeep Ghuman (UK) - 1 travel package to 1st EFP Master Clinic Paris 2014 + free entry

3rd Prize>> Mustafa Seebären Euginer (Turkey) - 1 Apple iPad 32 GBWIFI Black

EuroPerio 7 >> Vienna, Austria 6-9 June 2012

Innovation and Internet sophistication heralded the success of EuroPerio 7

Cell-to-Cell Communication – Inflammatory Reactions.

Visualizing the invisible while experiencing a fascination with science!

The world premier of this new technology took place at **EuroPerio 7**. This spectacularly sophisticated computer animation in HD quality depicted the highly complex process of intercellular interaction during an inflammatory periodontal reaction. The various cell types constituted the main “cast” of the film, using a finely tuned communication process in their quest to destroy the bacterial invaders, with messenger molecules as the “supporting cast”. This was indeed a stunning didactic and dramatic experience. Congratulations go to the authors: B. Stadlinger , H. Terheyden, the Advisory Board: D. Cochran, J. Meyle, P. Preshaw and M. Sanz, publisher Production: Quintessence Publishing / iAS and Cooperating Partners: Colgate / GABA.

EuroPerio 7 Conference App.

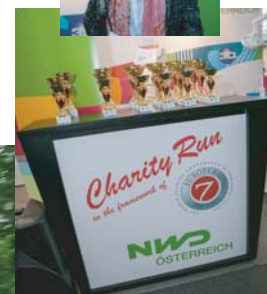

The complimentary **EuroPerio 7** Conference App was online in advance. It was available for iPhone, iPad, Android and as a mobile website, enabling delegates to select sessions to attend and access a personalized **EuroPerio 7** programme.

ÖGP Charity run

The ÖGP charity run/walk took place on Saturday morning in the Prater Park area, close to the conference venue. Charity donations of €15.00 per head were collected prior to commencement. All donations were given to "neunerHaus", an institution, which provides shelter as well as medical and dental care to homeless people. More than 1.000 needy people are already being treated in the neunerHaus dental practice. This could not have been possible without this valuable assistance.

A great number of delegates participated amidst a feeling of comradeship and charity. Each person who finished the course received a medal at the finish line. Three trophies were also presented, one for each of the three age categories assigned for the event. The ÖGP Charity run/walk was generously sponsored by Planmeca.

Absolutely fascinating!

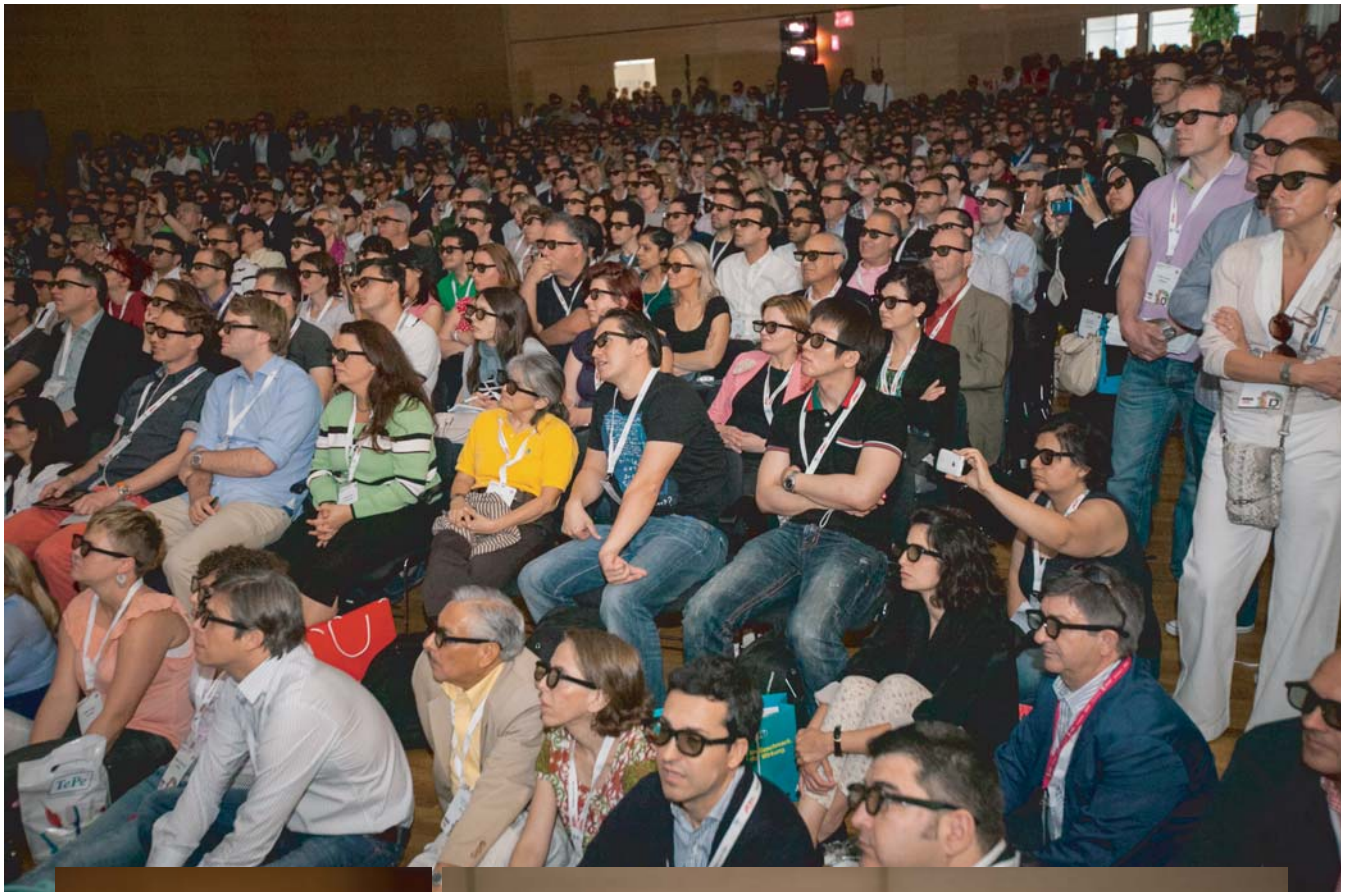

Perio & Implant Surgery in 3D

On Saturday the Strauss 1 lecture hall was filled to overflowing as this new 3D session delighted the 3D spectacle-wearing audience with a 3D presentation powered by GDS Communication.

Pierpaolo Cortellini and Tiziano Testori presented the surgical approach to intrabony defects: from flap design to suturing techniques, maxillary sinus elevation and guided surgery: from 3D planning to the step-by-step surgical phase.

Absolutely fascinating!

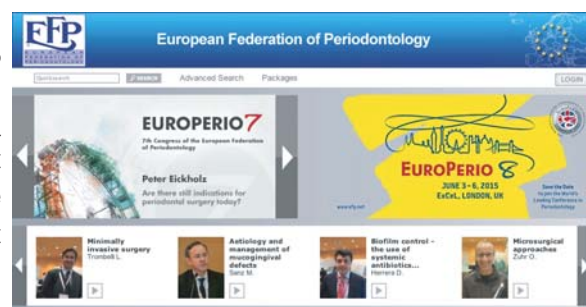

EuroPerio 7 >> Vienna, Austria 6-9 June 2012

Innovation and Internet sophistication heralded the success of EuroPerio 7

EuroPerio 7 Library

The recording of sessions and the building up of a content library for the EFP website was created after the congress.

Presentations from the main session halls are now available on-line via www.efp.net. This is an excellent chance to watch presentations you might have been unable to attend during the congress. All these presentations are now available (exclusively to participants of **EuroPerio 7**) in the EFP Content Library on www.efp.net/europerio/europerio7/index.html.

The Johnson & Johnson Award for Best Virtual Presentation

For the first time, the presentations for this award were made remotely via an internet link using cutting-edge technology and broadcasting from multiple global locations. The competition was open to Institutions represented by their researchers, who were unable to attend the meeting in person. The award also gave the winning Institution an opportunity to secure financial support towards travel costs for their researchers in order to present their research in person at **EuroPerio 8**, scheduled to take place in London from June 3-6, 2015.

Prof. Josef Penninger at EuroPerio 7

The esteemed Austrian professor, Josef Penninger gracefully agreed to be one of the plenary lecturers of the congress. Entitled Basic Mechanisms of Disease Pathogenesis, Prof. Penninger's lecture was an excellent opening of the **EuroPerio 7** congress and gave a thorough and instructive insight about pathogenesis.

Josef Penninger is the Senior Scientist and Scientific Director of the Institute of Molecular Biotechnology. The scientists at IMBA perform groundbreaking research. Studies of Josef Penninger's team are working to establish basic principles of physiology and basic mechanisms of disease pathogenesis. In particular, the Penninger Laboratory focuses on heart and lung diseases, cancer, and bone diseases.

Prof. Penninger agreed to donate his honorarium (€ 5,000) as a Summer School Scholarship at their research center IMBA.

For more information:

www.vbcsummerschool.at
www.imba.oeaw.ac.at

Official Opening Ceremony

This exceptional tribute to the international flavor of **EuroPerio 7** commenced with a traditional flag parade during which the EFP representatives were called upon to wave their national flag in unison. A string quartet excellently performed classic pieces while graceful ballet dancers enchanted the audience with displays of extreme expertise and beauty.

Speakers Dinner

The traditional **EuroPerio** Speakers Dinner took place on Wednesday 6 June at the prestigious "Neue Burg" which is a part of the "Hofburg" (Imperial Castle) located in the city centre of Vienna. The event was generously sponsored by EMS.

Welcome Reception

The Welcome Reception took place early on Thursday evening at the Exhibition Hall.

Guests were treated to delicious finger-foods and an endless choice of beverages.

The Welcome Reception offered an excellent opportunity for the participants to meet their colleagues and business partners.

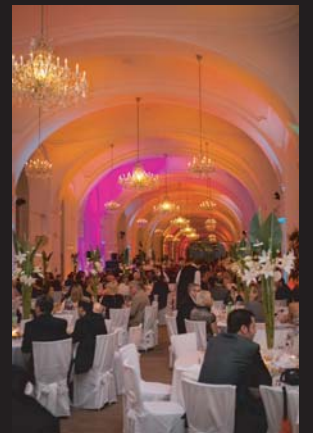

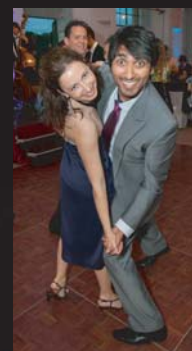

Gathering of the Board Members and Ambassadors of the EFP Societies

During **EuroPerio 7** the Board Members and Ambassadors of the 26 National Societies that form the EFP met in Vienna. Around 170 delegates met together for a drink after the scientific sessions. Stefan Renvert, EFP Secretary General together with Mayumi Kaneda from Sunstar warmly welcomed the delegates. It was a very nice gathering generously sponsored by **SUNSTAR**

Gala dinner

On Saturday evening the Gala dinner was hosted at the Orangerie Schönbrunn, of Schoenbrunn Palace, the largest orangery building in the world. Guests mingled in an elite atmosphere, re-connecting with old and new acquaintances while celebrating the success of **EuroPerio 7**.

National Societies' Staff meet for dinner in Vienna

During **EuroPerio 7** the staff of the National Societies attending the congress met for a nice dinner in Vienna.

Mónica Guinea, EFP European Coordinator and Günter Lichtner, Marketing representative of the Austrian Society of Perio took care of the arrangements at Plachutta a typical Viennese restaurant.

The participants were: Ghilaine Ower and Helen Clough (UK), Caroline Deniaud (France), Gerlinde Riembauer (Germany), Maria Blazaki (Greece), Emily Martin (Ireland), Javier Garcia (Spain), Anca Silvia Dumitriu (EFP Delegate Romania).

Rose Barnstable and Katie Goss, staff of the American Academy of Periodontology were also invited. It was a very good opportunity for the representatives to meet each other and share their experience working in sister institutions all over the world.

EFP & AAP officers met in Vienna during EuroPerio 7

EFP officers: Moshe Goldstein (President), Stefan Renvert (Secretary General), Mariano Sanz (EWP Chairman), Edwin Winkel (EAC Chairman) and Mónica Guinea (European Coordinator) invited AAP officers to a Welcome coffee during **EuroPerio 7**. On part of the AAP the delegation consisted of Pam McClain (President), Nancy Newhouse (President-Elect), Robert Genco (JP Past-editor), Kenneth Kornman (JP Editor) and Alice DeForest (Executive Director). It was a nice gathering where the officers discussed common projects and ways to strengthen collaboration between sister institutions.

Perio societies from India and Nigeria approached EFP during EuroPerio 7 to join the Federation.

During EuroPerio 7, Dr. Balaji Manohar, Secretary of the Indian Society of Periodontology and Dr. Kofo Savage, member of the Board of the Nigerian Society of Periodontology approached Dr. Stefan Renvert, EFP Secretary General asking how to apply to become EFP members.

Mondial

*Special Thanks
to Mondial!*

The European Federation of Periodontology (EFP) wishes to wholeheartedly thank Mondial Congress for their professionalism, efficiency and enthusiasm in magnificently fulfilling their role as Professional Congress Organisers of **EuroPerio 7**.

The whole team worked hard and their cooperation, supervision skills and hospitality services were outstanding. Mondial Congress ensured the smooth running and success of this huge congress. Our sincere thanks to the whole team.

EuroPerio 7 Organising Committee

The Organising Committee of **EuroPerio 7** was delighted to receive a great deal of immediate and positive feedback. This event was the result of tremendous effort from the Organising Committee, led by its chairman, Gernot Wimmer, who spared no time nor effort, all working so very hard and diligently to ensure that this Congress would be remembered as yet another successful and unforgettable occasion. The success of **EuroPerio 7**, 2012 undoubtedly reflects the constant outstanding image of the European Federation of Periodontology.

EFP Jaccard Prize 2012

EFP Jury: Maurizio Tonetti (Chairman), Francis Hughes and Lior Shapira

10 manuscripts were submitted.

Awarded Manuscript

Title: Validation of reported genetic risk factors for periodontitis in a large-scale replication study

Authors: Arne S. Schaefer, Michael Nothnagel, Gesa Richter, Christian Graetz, Yvonne Jockel, Inga Harks, Ingmar Staufienbiehl, Esra Guzeldemir, Mathias Folwaczny, Barbara Noack, Joerg Meyle, Peter Eickholz, Andre Franke, Birte Groessner-Schreiber, Christof Doerfer, Leonardo Trombelli, Chiara Scapoli, Rahime Nohutcu, Soren Jepsen, Bruno G. Loos, Stefan Schreiber.

Finalists (presented at EuroPerio during the Jaccard Prize session)

Five-year change of periodontal diseases in the Study of Health in Pomerania (SHIP)

Authors: Daniela Gätke, Birte Holtfreter, Reiner Biffar, Thomas Kocher.

Interrelation between periodontitis and coronary artery disease: role of TNF α

Authors: Susanne Schulz, Axel Schlitt, Andrea Lutze, Sandra Lischewski, Tim Seifert, Tanya Dudakliewa, Robert Gawe, Karl Werdan, Britt Hofmann, Christiane Gläser, Hans-Günter Schaller, Stefan Reichert.

Comments on EuroPerio 7 from Oral-B / P&G

“ First of all, allow me to congratulate you, the EFP Board and the Organizing Committee for the excellent execution of the **EuroPerio 7** event in Vienna. From day one, when we opened our booth in the registration area, until Saturday, when the last attendees left the exhibition hall and the congress centre, we experienced a vibrant congress. The exhibition hall was large enough to give space to the exhibitors, the scientific sessions were planned in such a way that there was enough time left for visits of the booths of the partners, and the logistics for the sponsored symposia worked perfectly. It was a nice experience also for us, our co-workers and our agency partners.

Not only from the number of participants, but also their high level of scientific background and eagerness to learn, made this event for us a highly valuable effort. We came to **EuroPerio 7** to share our science and educational programs, and surely achieved our goals in terms of numbers of professionals visiting our booths and attendees in the symposia we sponsored. The **EuroPerio** congress is an ideal platform for interaction with the key periodontists and building the scientific and educational equity that we want our brand Oral-B to have with the dental community at large.

Thanks for helping us reach this through the EFP and its programs.

We also greatly enjoyed the gala-dinner in the Orangerie of Schloss Schonbrunn: food was excellent, performances great, environment fantastic and... it provided us with another platform for re-building relationships with the key leaders in periodontology from around the globe.

We are very proud to be a longstanding partner of EFP and are looking forward to the next **EuroPerio 8** in London and other EFP activities we can build together.

Guy Goffin

EMEA Professional & Scientific Relations Oral Care /Procter & Gamble

>> *The Johnson & Johnson Award for Best Virtual Presentation supported by EuroPerio 7 - Vienna*

Eight finalists of this prestigious research award, a first of its type for **Johnson & Johnson Consumer Services** EAME Limited and partner of the European Federation of Periodontology (EFP), were projected into the lime-light when they were short-listed to give their virtual presentations at **EuroPerio 7** (Vienna, June 6-9, 2012). The presentations were made remotely via an internet link using cutting-edge technology and broadcast from multiple global locations, including India, Italy, Greece and the United States of America. The competition was open to Institutions represented by their researchers who were unable to attend the meeting in person. The award also gave the winning Institution an opportunity to secure financial support towards travel costs for their researchers to present their research in person at **EuroPerio 8**, London, June 3-6, 2015.

All submitted abstracts were independently assessed by three judges chosen by the EFP – Professor Dr. Dr. Soren Jepsen, Director and Chairman of the Department of Periodontology, Operative and Preventive Dentistry, University of Bonn, Germany, Professor Dr. Moshe Goldstein, Faculty of Dental Medicine Hebrew University, Hadassah Dental School, Israel and Professor Dr. Phoebus Madianos, Professor of Periodontology, Department of Periodontology, Athens, Greece.

The three EFP judges selected the eight finalists and then went on to listen, discuss and deliberate on their presentations which were made over two days via live link. After deliberation and agreement by the EFP judges all eight participants were brought together on screen in real time and the winner of the award was announced to them live.

The winning Institution was the **FACULTY OF DENTAL SCIENCES, SRI RAMACHANDRA UNIVERSITY, DEPARTMENT OF PERIODONTOLOGY, CHENNAI, INDIA**, represented by Prof. Dr. Ranga Rao Suresh, for his virtual presentation “An interventional study on the efficacy of non-surgical mechanical periodontal therapy on Advanced Oxidation Protein Products (AOPPs) and glyce-mic levels in uncontrolled type 2 diabetes mellitus patients with chronic periodontitis”.

Professor Moshe Goldstein offering congratulations to Professor Suresh said; “As EFP President and Chairman of the panel of the Johnson & Johnson virtual award session, I am very pleased to congratulate you for an outstanding presentation. We were all very impressed by your innovative and complex research idea, quality of the work carried out and of course your presentation skills. We invite you to work hard on the project and present the outcomes in London in 2015 at **EuroPerio 8**”.

For further details of this award and future award criteria and submission, please contact Dr. Maria Mantzourani-mmantzou@its.jnj.com.

>> DENTAID at EuroPerio 7

>>> Vienna, 6-9 June 2012 (Messe Wien)

DENTAID, a multi-national company specialising in oral health, made its presence at the **EuroPerio 7**. For DENTAID, being part of Europe's leading congress on periodontology was a great opportunity to transmit the company's science and research to Vienna, the hub of the Periodontology industry during June 6-9. This professional backdrop also promoted collaboration and synergy with new markets, helping to expand international borders, the key to DENTAID's corporate growth.

DENTAID, Gold Sponsor and Partner of the European Federation of Periodontology (EFP), had the opportunity to reveal the results of scientific research carried out by the company's R&D+i team through a scientific lecture. The scientific study focused on "Application of an Artificial Mouth Flow Model for Evaluating Mouth Rinses" with the objective of characterising a flow model for the in vitro formation of oral bacterial biofilms, and applying the model to test antiseptic mouthwashes to prove their effectiveness on the developed biofilms.

In an interview prior to the celebration of EuroPerio's seventh edition, Dr. Vanessa Blanc, Director of the Microbiology Department at **DENTAID**, described the fundamentals of the company's scientific focus as well as the main points of her lecture: http://www.youtube.com/watch?v=vxYjnJf-Uvs&list=UULT4ol-m-0yIJWopP7Xus1g&index=5&feature=plpp_video

Along these same lines, a scientific poster on recent research was also presented. Dr. Gerard Ylvarez, Microbiologist of DENTAID's Microbiology Department, personally disclosed the results of the "Use of Propidium Monoazide (PMA) for Quantification of Live and Dead Cells in Multispecies Oral Biofilms". Additionally, over the four day course of the **EuroPerio**, **DENTAID** carried out extensive 2.0 coverage. We wanted to share the different actions that the company conducted from their trade booth to present new product launches including VITIS implant® e Interprox®, as well as that of other oral health products. Once the congress was over, we gathered all of the information that was spread throughout the different platforms, creating a storify about DENTAID's journey through the **EuroPerio 7**.

The Sunstar Foundation congratulates the winners of

The 4th Sunstar World Perio Research Awards

Award recipients

1st Place:

Morita T, Yamazaki Y, Mita A, Takada K, Seto M, Nishinoue N, Sasaki Y, Motohashi M, Maeno M.

A Cohort Study on the Association Between Periodontal Disease and the Development of Metabolic Syndrome.

Journal of Periodontology 2010; 81:512-519.

2nd Place:

Morita I, Okamoto Y, Yoshii S, Nakagaki H, Mizuno K, Sheiham A, Sabbah W.

Five-Year Incidence of Periodontal Disease Is Related to Body Mass Index. *Journal of Dental Research* 2011; 90:199-202.

3rd Place:

Lalla E, Kunzel C, Burkett S, Cheng B, Lamster IB.

Identification of Unrecognized Diabetes and Pre-Diabetes in a Dental Setting. *Journal of Dental Research* 2011; 90:855-860.

Selection Committee:

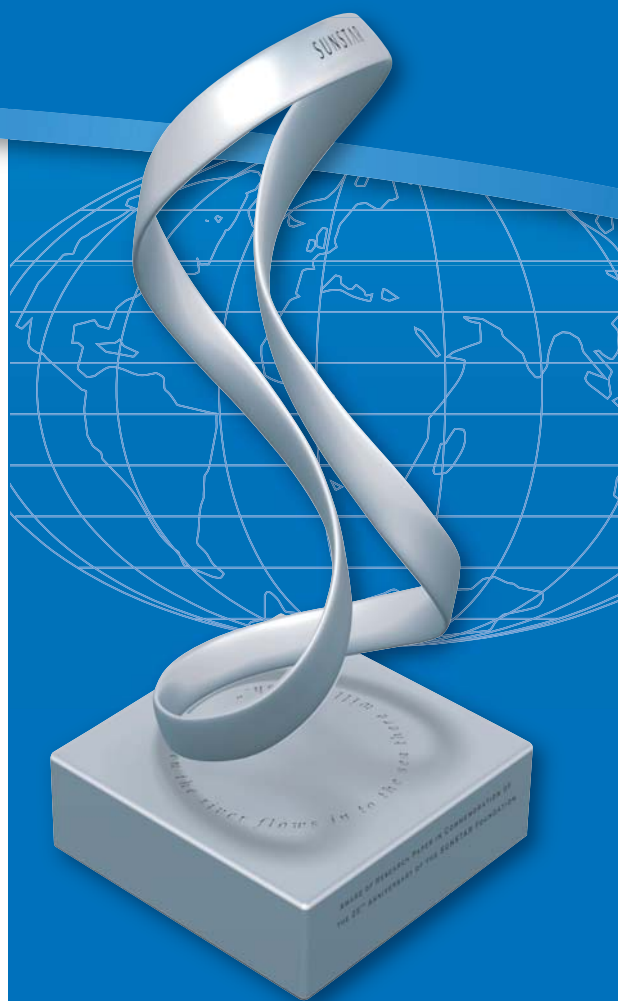

Chair, Robert Genco

William Giannobile, Isao Ishikawa, Kenneth Kornman,

Shinya Murakami, Jorgen Slots and Maurizio Tonetti

The winning papers were presented at EuroPerio 7, June 8, 2012. A gala dinner and award ceremony were held the following evening in Vienna, Austria.

EFP Graduate Research Prize 2011

Five excellent papers were submitted in 2011 for the EFP Graduate Research Prize.

The Jury has followed the evaluation criteria set up by U. van der Velden, Chairman of the PEC committee.

The Jury agreed that the EFP-Graduate Research Prize should be awarded to:

1st prize: "A follow-up study of peri-implantitis cases after treatment" by Georgios Charalampakis, Per Rabe, Asa Leonhardt and Gunnar Dahlen from Gothenburg Perio program and published at *Journal of Clinical Periodontology*.

2nd prize: "Gingival changes during pregnancy: III. Impact of clinical, microbiological, immunological and socio-demographic factors on gingival inflammation" by Ana Carrillo de Albornoz A, Elena Figuero, David Herrera, Pedro Cuesta, Antonio Bascones Martinez from UCM Madrid Perio program and published at *Journal of Clinical Periodontology*.

3rd prize (shared): "Detection of Periodontal Bacteria in Atheromatous Plaque by Nested Polymerase Chain Reaction" by Elena Figuero, Maria Sanchez Beltron, Susana Cuesta-Frechoso, Jose Maria Tejerina, Jose Antonio del Castro, Jose Maria Gutierrez, David Herrera and Mariano Sanz from UCM Madrid Perio program and published at *Journal of Clinical Periodontology*.

3rd prize (shared): "Surgical protocols for early implant placement in post-extraction sockets: a systematic review" from Ignacio Sanz, Maria Garcia Gargallo, David Herrera, Conchita Martin, Elena Figuero and Mariano Sanz from UCM Madrid Perio program and published at *Clinical Oral Implant Restorative*.

New EFP members

The EFP continues to grow. In Helsinki on Saturday, 3 March 2012, the GA approved the change of the status of the Serbian Society of Periodontology to full member and the application of the Romanian Society of Periodontology as new associate member.
